Forecast for Tuesday 17 Sep 2024

Weather: Any isolated patches of mist and fog that formed in fog prone valleys will soon lift and clear to give plenty of warm sunshine. Staying dry throughout. Dry with clear skies by the evening.

Chance of cloud-free hill tops above 600m: 90% throughout.

Low cloud and visibility: Some valley fog will gradually clear during the morning. Otherwise, summits largely clear with some very good to excellent views of distant hills and peaks.

Forecast for Wednesday 18 Sep 2024

Weather: Dry with clear skies overnight, allowing some mist and valley fog to form by dawn. Meanwhile, low cloud is likely to drift in off the North Sea to affect some eastern facing slopes overnight and early morning. Highest hill tops likely to stick out above the low cloud. Early morning low cloud, mist and fog should soon lift and disperse to give a fine day, with plenty of sunshine. Dry with clear skies into the evening.

Maximum wind: Easterly 20mph, gusting 25-30mph.

Chance of cloud-free hill tops 600m: 90% throughout.

Low cloud and visibility: Cloud bases down to 400m on eastern facing slopes, with valley fog and poor visibility gradually lifting above the summits. Visibility becoming very good or excellent for distant views of hills and peaks.

Temperature: **Valleys:** Plus 10 Celsius, becoming Plus 20 Celsius.
At 600m: Plus 6 Celsius, becoming Plus 14 Celsius.
Freezing level: Above the summits.
